

Lujain Alsultan | (Software Developer)

Riyadh, Saudi Arabia | 0532146333 | ljainabduhmohsen@hotmail.com | [Linkedin](#) | [github](#)

I'm a disciplined and fast-learning software developer with strong problem-solving, communication, and leadership skills. I excel at taking initiative, driving solutions forward, and building efficient, high-quality software that delivers real impact.

SKILLS

Languages: JavaScript | Python | SQL | Swift | HTML | CSS

Frameworks: Django | React | Express.js | Node.js

Tools & Technologies: Git | GitHub | Docker | PostgreSQL | REST APIs | JWT Authentication | Vite

Development Practices: Agile | Debugging | Problem Solving | Team Collaboration

Projects

Yusr AI Assistant | Solo Capstone Project | 2025

An AI-chatbot government services assistant designed to unify multiple Saudi e-services into one modern platform. Developed a **full-stack web application** using **Django REST Framework (backend)** and **React (frontend)** with JWT authentication, PostgreSQL database, and Docker containerization.

Implemented dynamic chatbot interactions, payment simulation through a virtual bank account, and real-time service tracking for agencies such as Civil Affairs and Traffic Services.

RELEVANT EXPERIENCE

Software Development Trainee | Saudi Digital Academy (SDA) Bootcamp | Riyadh, Saudi Arabia | (2025)

- Developed and deployed multiple full-stack applications using **Python, Django, and React**, applying industry best practices in REST API design and authentication.
 - Collaborated in an Agile environment, completing over **10 structured projects and labs** that strengthened skills in problem-solving, debugging, and version control (Git/GitHub).
 - Improved application efficiency and maintainability by implementing **modular architectures** and clean code standards.
 - Demonstrated fast learning and adaptability by rapidly gaining proficiency in new technologies and applying them to real-world challenges.
 - Achieved the top score in my SDA cohort.
-

EDUCATION

Saudi Digital Academy (SDA) & General Assembly | Riyadh, Saudi Arabia | 2025

Completed an intensive full-stack software development program through the Saudi Digital Academy in collaboration with General Assembly. The 12-week, 500+ hour immersive training focused on Python, Django, React, object-oriented programming, MVC frameworks, data modeling, and Agile collaboration. Built a portfolio of individual and group projects applying real-world development practices.

Bachelor's Degree in Medical Laboratory Science | Jouf University | Jouf, Saudi Arabia | Graduated: 2023
